

# MD Al Amin Islam

## Web Developer

I am a dedicated student currently pursuing a diploma in textile engineering, but my passion extends far beyond that. I'm actively exploring the dynamic world of web development, where I have ambitious dreams of making a significant impact. With a strong drive to succeed, I constantly push myself to excel in both fields, always striving to give my very best and turn my aspirations into reality.

## WORK EXPERIENCE

### Web Development

Proficient in HTML, CSS, and JavaScript, with hands-on experience building and styling responsive web pages and interactive features. Continuously expanding skills through practical projects and learning new techniques.

### Writing

I always strive to write something new regularly, which helps me create narratives and greatly aids my learning.

### Photography

Photography is a passion of mine, often pursued in my favorite places. I strive to capture new moments in unique frames, preserving memories in creative ways.
